

TAMRALIPTA MAHAVIDYALAYA

ESTABLISHED 1948 | AFFILIATED TO VIDYASAGAR UNIVERSITY
NAAC ACCREDITED WITH "A" GRADE | TAMLUK, PURBA MEDINIPUR, WB

TM-LMS: SMART LEARNING MANAGEMENT & ACADEMIC GOVERNANCE SYSTEM

COMPREHENSIVE STAKEHOLDER USER MANUAL

A Complete Operational Guide for Authentication, Security Protocol, Course Delivery, Attendance Tracking, Examination Administration, and Governance Workflows.
Covers all 6 Institutional Stakeholder Categories under DPDP Act 2023 & NEP 2020 Framework.

Edition: v2.4 (Academic Year 2026-2027) | Document Ref: TM/LMS/MANUAL/2026/01

TARGET STAKEHOLDER CATEGORIES

Student (TM-STD) • অধ্যয়নরত শিক্ষার্থী

Online classes, resource repository, assignments, attendance, transcripts

Faculty Member (TM-FAC) • অধ্যাপক / সহ অধ্যাপক

Curriculum delivery, digital attendance, assignment grading, mentoring

Department Head (TM-HOD) • বিভাগ প্রধান

Course allocation, syllabus progress, faculty workload & department notices

Principal / Admin (TM-ADM) • প্রতিষ্ঠান প্রধান

Institutional analytics, NAAC audit metrics, regulatory compliance, college notices

Super Administrator (TM-SADM) • সিস্টেম প্রশাসক

ID generation rule engine, bulk CSV provisioning, role security & lockout controls

Technical Support (TM-ITS) • ইটি সেল

Identity verification, credential reset diagnostic, audit trail monitoring

Institutional Compliance & Governance Statement

This manual is issued under the authority of the Governing Body and Principal, Tamralipta Mahavidyalaya. All authorized users must adhere strictly to the Digital Personal Data Protection (DPDP) Act, 2023, UGC Cyber Security Guidelines, and institutional IT policies. No plain text passwords are stored or distributed.

Official Portal: <https://tmv-dusky.vercel.app> | IT Cell: itsupport@tmv.ac.in

Table of Contents & Core Architecture

1.0	System Access & Institutional Credentials Schema	Page 03
2.0	First-Time Account Activation Workflow	Page 03
3.0	Password Recovery Protocols (Email Link & Mobile OTP)	Page 04
4.0	Student Operations Manual (TM-STD)	Page 05
5.0	Faculty Operations Manual (TM-FAC)	Page 06
6.0	Department Head Operations Manual (TM-HOD)	Page 07
7.0	Principal & Executive Administration Manual (TM-ADM)	Page 08
8.0	Super Administrator & Security Policy Governance (TM-SADM)	Page 09
9.0	Technical Support & Helpdesk Protocols (TM-ITS)	Page 10
10.0	Data Privacy (DPDP 2023), Audit Logs & Incident Management	Page 10

System Architecture & Security Model

TM-LMS utilizes a Zero-Trust Role-Based Access Control (RBAC) architecture built specifically for higher education institutions. The system decouples frontend presentation from authorization decisions: access rights are evaluated strictly at the server/database layer against verified institutional records.

Key Security & Architectural Standards

- Non-Reusable Institutional User IDs: IDs are deterministic, unique, and contain zero confidential information.
- Cryptographic Salted Hashing: User passwords are encrypted with industry-standard bcrypt/PBKDF2; never plain text.
- Dual-Channel Account Recovery: Secure verification via registered email (15-min token) and mobile SMS OTP (5-min token).
- Brute-Force Rate Limiting: 5 consecutive failed login attempts trigger an immediate 15-minute temporary lockout.
- Immutable Audit Logs: All authentication attempts, lockouts, resets, and role assignments are immutably logged.
- DPDP Act (2023) Compliance: Explicit consent, data minimization, and right to rectification built in.

1.0 Institutional User ID Schema

Tamralipta Mahavidyalaya assigns standardized institutional User IDs based on stakeholder category:

Category	User ID Format	Example	Description
Student	TM-STD-YYYY-XXXXX	TM-STD-2026-00042	Institutional prefix, year of admission, sequential roll
Faculty	TM-FAC-XXXX	TM-FAC-0028	Faculty cadre prefix and permanent employee serial
Department Head	TM-HOD-XXXX	TM-HOD-0014	Department Head designation code
Principal / Admin	TM-ADM-XXXX	TM-ADM-0001	Executive leadership and college administration
Super Admin	TM-SADM-XXXX	TM-SADM-0001	Global IT system administration
Technical Support	TM-ITS-XXXX	TM-ITS-0003	Helpdesk and systems maintenance staff

2.0 First-Time Account Activation Workflow

New students and newly appointed faculty members receive their provisional User ID and an institutional activation code upon admission/onboarding. Accounts are in "Pending Activation" state until verified.

Step 1: Initiation

Visit the TM-LMS Login page and click "Activate Account". Select your stakeholder category.

Step 2: Verification

Enter your assigned User ID (or university roll) and the 6-digit activation code sent via SMS/Email.

Step 3: Password Setup

Configure a confidential password (minimum 8 chars with uppercase, lowercase, number & symbol).

Step 4: Confirmation

Account immediately transitions to "Active". A security confirmation notification is dispatched.

Important Security Note on Default Credentials:

Tamralipta Mahavidyalaya never transmits default or permanent passwords via paper slips, plain emails, or public notice boards. All initial setups mandate personal password generation by the stakeholder.

3.0 Self-Service Password Recovery Protocols

If a stakeholder forgets their password, they can recover access through two independent channels. The system defends against account enumeration by always providing neutral feedback on user lookups.

Method A: Email Token Link

1. Click "Forgot Password" on login portal.
2. Select "Institutional Email" option.
3. Input registered User ID or college email.
4. System generates cryptographically signed single-use reset token (15-minute expiry).
5. Check your inbox and click the secure link.
6. Enter your new strong password & confirm.
7. Token is immediately revoked and invalidated.
8. Security alert email dispatched confirming reset.

Method B: Mobile SMS OTP

1. Click "Forgot Password" on login portal.
2. Select "Mobile OTP" option.
3. Input registered User ID or 10-digit mobile.
4. System dispatches 6-digit numeric OTP with 5-minute validity period.
5. Maximum of 3 attempts permitted before lockout.
6. Enter OTP on screen to verify phone identity.
7. Set new confidential password and confirm.
8. Event logged to Audit Trail with IP & timestamp.

Forgot User ID Workflow

If a user forgets their institutional User ID, they can click "Forgot User ID?" on the login page. By supplying either their verified institutional email or registered mobile number, the system will match records and dispatch their designated User ID directly to their verified communication channel.

Account Lockout & Brute-Force Safeguards

- 5 Consecutive Failed Attempts: Triggers automatic account lock for 15 minutes to thwart automated dictionary attacks.
- Automated Lockout Notification: Dispatched to the user's registered email specifying the timestamp and client IP.
- Emergency Unlocking: Can be performed immediately by authorized Technical Support (TM-ITS) or Super Admin (TM-SADM).
- Self-Unlock: Occurs automatically upon timer expiration without requiring administrative intervention.

4.0 Student Operations Manual (TM-STD)

Designated for undergraduate and postgraduate students enrolled at Tamralipta Mahavidyalaya.

4.1 Accessing the Student Portal

Log in with your TM-STD-YYYY-XXXXX credential. Your dashboard displays today's schedule, upcoming assignment deadlines, real-time semester attendance percentage, and college notice board.

4.2 Course Syllabus & Lecture Repository

Navigate to "My Courses". Each enrolled course features downloadable lecture slides, recommended e-textbooks, video lecture archives, and reference notes categorized by Unit/Module.

4.3 Assignment Submissions & Plagiarism Check

Submit assignments before the designated cut-off date in PDF, DOCX, or ZIP formats. Once evaluated by the faculty, grades and detailed rubric feedback become instantly accessible.

4.4 Real-Time Attendance Monitoring

UGC and Vidyasagar University mandate 75% minimum attendance for semester exam eligibility. The portal visually calculates your overall and course-wise percentage, warning you if your attendance dips below 75%.

4.5 Online Quizzes & Continuous Internal Assessments (CIA)

Participate in scheduled objective assessments and term tests. The system enforces anti-tamper controls and auto-submits upon timer expiration. Instant scores and answer keys display upon publication.

4.6 Semester Results & Digital Grade Cards

Access SGPA/CGPA breakdowns, credit point accumulation, and provisional grade cards. Submit grade re-verification requests directly to the Examination Cell through the portal.

5.0 Faculty Operations Manual (TM-FAC)

Designated for professors, associate professors, assistant professors, and guest lecturers.

5.1 Class Schedule & Timetable Management

View assigned class routines, room allocations, and laboratory schedules. Faculty can mark rescheduled classes or request lecture swaps with departmental colleagues with one click.

5.2 Digital Attendance Register

Mark daily lecture attendance student-by-student or through quick batch marking. Generates automated monthly attendance statements required for university examination submission.

5.3 Courseware & Learning Asset Distribution

Upload syllabus progress notes, weekly assignments, reading links, and lecture slide decks. Group learning materials into pedagogical modules aligned with the CBCS/NEP syllabus structure.

5.4 Assignment Evaluation & Grading Rubrics

Review digital student submissions online. Use in-app annotations, assign marks against structured rubrics, and provide qualitative feedback. Export evaluation spreadsheets for institutional records.

5.5 Internal Assessment & Practical Marks Entry

Conduct continuous assessments, mid-semester exams, and viva-voce tests. Submit finalized internal marks directly to the Department Head with digital verification.

5.6 Student Mentorship & Academic Warning Dispatch

Monitor assigned mentee batches. Send direct academic warning notifications to students (and registered parent contacts) whose attendance or performance falls below departmental thresholds.

6.0 Department Head Operations Manual (TM-HOD)

Designated for Heads of Academic Departments across Arts, Science, and Commerce streams.

6.1 Departmental Workload & Course Allocation

Distribute theory and practical papers among department faculty according to UGC workload norms. Monitor weekly contact hours, tutorial batches, and lab instructor assignments.

6.2 Syllabus Coverage Audit & Lesson Plans

Review real-time syllabus completion statistics submitted by departmental faculty. Identify curriculum bottlenecks and ensure syllabus completion ahead of semester final examinations.

6.3 Class Swap & Faculty Leave Coverage Approvals

Review and approve intra-departmental class exchange requests and substitute arrangements when faculty members are on academic leave or official university duty.

6.4 Departmental Attendance & Performance Oversight

Analyze department-wide student attendance analytics. Authorize condonation review lists for eligible medical cases prior to forwarding to the Principal and Academic Council.

6.5 Internal Marks Moderation & University Submission

Moderate internal assessment marks submitted by faculty members to ensure grading consistency and compliance with university benchmarks prior to final locking.

6.6 Departmental Notices & Circular Dispatch

Broadcast department-specific circulars regarding seminars, project submissions, practical exam rosters, and departmental meetings directly to faculty and student dashboards.

7.0 Principal & Executive Admin Manual (TM-ADM)

Designated for the Principal, Vice-Principal, Bursar, and Executive Academic Administrators.

7.1 Executive Institutional Analytics & KPI Overview

High-level dashboard visualizing aggregate enrollment numbers, daily campus attendance trends, department-wise syllabus progress, and faculty instructional compliance metrics.

7.2 NAAC, NIRF & Vidyasagar University Compliance Reports

Generate institutional audit data packs (Criterion 1 & 2) with verified student-faculty ratios, mentor-mentee logs, continuous internal assessment records, and digital resource usage metrics.

7.3 College-Wide Urgent Broadcasts & Gazetted Circulars

Publish authoritative college notices, holiday declarations, examination schedules, and regulatory circulars with read-receipt confirmations and priority banner alerts across all portals.

7.4 Academic Calendar & Semester Milestone Governance

Establish the institutional academic calendar: semester commencement, mid-term evaluation windows, exam registration periods, and vacation schedules.

7.5 Inter-Departmental Performance Comparisons

Benchmark academic departments against historical pass percentages, research output, library usage, and digital teaching material adoption rates.

7.6 Grievance Redressal & Disciplinary Oversight

Access escalated academic complaints, student appeals, and disciplinary committee dockets with complete timeline audit logs and resolution tracking.

8.0 Super Administrator Manual (TM-SADM)

Designated for Senior IT Systems Administrators managing institutional access policies and core databases.

8.1 Institutional User ID Generation Policy Engine

Configure prefix rules for all stakeholder tiers (e.g. TM-STD, TM-FAC). The engine guarantees deterministic, non-reusable IDs, sequential padding, and admission year tokens.

8.2 Single User Creation & Automated Credentials

Create individual accounts with instant schema verification. System assigns sequential User ID, creates pending activation token, and notifies stakeholder.

8.3 Bulk User CSV Provisioning & Validation

Upload batch student/staff CSV records. Built-in validation checks email syntax, mobile number validity, duplicate roll numbers, and assigns bulk sequential IDs with zero collisions.

8.4 Security Policy Configuration & Lockout Rules

Set global security parameters: maximum failed password attempts before lockout (default: 5), lockout duration (default: 15 min), session timeout TTL, and password complexity rules.

8.5 Global User Directory & Instant Account Controls

Filter users across all 6 stakeholder categories. Perform instant account status updates: Activate, Suspend, Deactivate, or Force Password Reset across the institution.

8.6 Immutable Security Audit Log Inspection

Inspect comprehensive audit logs capturing all login events, IP addresses, failed password triggers, account locks, unlock operations, and policy modifications.

9.0 Technical Support & Helpdesk Protocols (TM-ITS)

- Identity Verification Protocol: Verify stakeholder identity through college ID card or registered mobile before performing manual unlocks.
- Account Unlocking: Access the Security Audit Console to unlock accounts locked due to repeated incorrect password entries.
- OTP Diagnostic Assistance: Inspect simulation logs and gateway delivery logs if a user experiences network delays receiving SMS OTPs.
- Browser & Device Troubleshooting: Ensure users use modern evergreen browsers (Chrome 120+, Firefox 120+, Safari 17+, Edge 120+).

10.0 Data Privacy (DPDP Act, 2023) & Governance

- Purpose Limitation: Personal data (mobile, email, roll) is processed exclusively for academic operations, attendance, and evaluation.
- Consent Architecture: Stakeholders provide explicit institutional consent during initial account activation.
- Zero Plaintext Password Policy: Passwords are encrypted using one-way cryptographic algorithms; administrators cannot view plain passwords.
- Audit Trail Retention: All authentication actions and security events are archived for statutory compliance and forensic review.
